## **DETAILED ACTION**

### ***Drawings***

1. Figures 7-9 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Allowable Subject Matter***

2. Claims 2-3, 6-8, 10-12, 14-16 and 21-22 are allowed.

3. The following is an examiner's statement of reasons for allowance.

The prior art does not teach the engine exhaust as recited in claims 2, 10 and 14, which include an intermediate component positioned between an upstream flexible coupling and a downstream flexible coupling and having mass. The intermediate component is being coupled to the upstream component via the upstream flexible coupling and coupled to the downstream component via the downstream flexible coupling. The intermediate component also is being free of direct connections to the body of the vehicle between the upstream and downstream flexible couplings such that the

Art Unit: 3618

intermediate component freely floats between the upstream and downstream flexible couplings with respect to the body of the vehicle. The intermediate component further includes a catalyst. The engine exhaust also includes a dynamic damper formed between the upstream component and the downstream component by virtue of the elastic characteristics and the mass, with the elastic characteristics of the flexible couplings being selected to optimize the resonant frequency of the dynamic damper with respect to the mass of the intermediate component. This recitation, in combination with the rest of the recited elements, clearly defines over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
